Note: Never worry about the incompatibility issue Filmora Video Editor is always updated to support the latest Mac OS X.. This latest and greatest version of ACID Pro is a very welcome update on one of my secret studio weapons.. As for professionals, try the 'Advanced Mode ' It comes with lots of visual effects, transition, title templates, video and DVD production options, and all basic video editing tools.. I love chopping up edits and cutting remixes on ACID Pro and the new audio separation feature is a really powerful function.. 'The creative freedom this piece of software has given me over the years has been incomparable.
